Description

Fully configured for Agricultural Operations with state-of-the-art saddlebag spray tanks. You need only to install your specialist Tracmap equipment for which the helicopter is hard-wired to accept (as needed) These Jet Rangers are civilian aircraft operating on Part 135 certificate and they present second to none. The airframes are mint - ZERO oil canning, ZERO corrosion, and as straight as a pool cue. Everyone knows that Jet Rangers are the Toyota Corolla of the sky and are more sensible than gumboots for maintenance and reliability. I've completed all the test flying on this ship and it makes 105kts IAS at 70% TQ with full fuel and a mate. If you ever need to autorotate there's time to text the wife that you'll be home late for dinner. If you value a conservative, fun, and sensible helicopter, don't buy an R44 or R66 with that pending 12-year calendar issue - just give me a call. Boyce +6421540460

Avionics

Artificial Horizon: Yes

Single Pilot Operation: Yes

ELT: Yes

Avionics/Radios
