Description

This 2006 AS350B3 helicopter, with just 1,506 hours of total time, is a robust, lightweight utility workhorse thanks to its single hydraulic system, which reduces weight compared to dual-hydraulic models. This helicopter is unique for its high-value "squirrel cheeks," which enhance storage and utility. It also features a crash-worthy fuel tank, an air conditioner for added comfort, and a Geneva panel switch system known for its unique, fail-proof design. With exceptional lifting capacity, agility, and reliability, this low-time AS350B3 is well-equipped for demanding missions, making it a valuable asset for versatile utility operations.

The descriptions and/or specifications provided are for introductory information only and do not imply any warranties or representations. The Purchaser is responsible for verification of specifications upon inspection. The Helicopter is offered subject to prior sale, lease or withdrawal from the market without prior notice.
