Description

This Black Hawk UH-60A+ is a highly adaptable helicopter, specifically modified for firefighting tasks and meets the USFS 5,000 pound payload requirement at 8,000 feet and 25C. It features upgrades such as the BLR FastFin, Pulsating Forward Recognition (LED) Kit, Cockpit Bubble Window, Modified Step Fairing, Handhold (left and right), a USFS-approved radio package, an enhanced battery, and a Mechanical Specialties Cargo hook. This workhorse is USFS carded and ready to go with a fresh PMI-2 inspection completed. Its robust 701D engines and durable build enable it to access areas unreachable by ground vehicles and drop water or fire retardant to fight wildfires. Beyond firefighting, the Black Hawk UH-60 serves in multiple roles, including search and rescue, medical evacuation, and disaster relief. Its reliability and flexibility make it an essential resource for any organization responding to emergencies.

The descriptions and/or specifications provided are for introductory information only and do not imply any warranties or representations. The Purchaser is responsible for verification of specifications upon inspection. The Helicopter is offered subject to prior sale, lease or withdrawal from the market without prior notice.
